PROFESSIONAL SUMMARY

Full-stack software engineer with experience building and maintaining production web applications using TypeScript, React, NestJS, and PostgreSQL. Currently responsible for technical planning, implementation decisions, code review, documentation, and coordination between developers and stakeholders. Experienced in developing scalable frontend and backend solutions, integrating third-party services, and translating business requirements into maintainable software.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, SQL

Frontend: React, Next.js, Angular, Astro, HTML, CSS, Tailwind CSS, Material UI, Bootstrap

Backend: Node.js, NestJS, REST APIs

Databases and ORMs: PostgreSQL, MongoDB, Firebase, Amazon RDS, Supabase, TypeORM, Drizzle ORM

Authentication: Clerk, Auth0

Cloud and DevOps: AWS, Amazon S3, Render, GitHub Actions

Development Tools: Git, GitHub, Jira, Miro, Slack, Trello

Methodologies: Scrum, Agile Development

PROFESSIONAL EXPERIENCE

Semi-Senior Software Engineer

Bixlabs | Feb. 2026 – Present

Technical leadership responsibilities

- Own the technical planning and execution of full-stack features, translating product requirements and user stories into actionable implementation plans.
- Define implementation approaches across frontend, backend, databases, authentication, payments, and third-party integrations.
- Review code and technical deliverables, identifying functional gaps, technical risks, and opportunities to improve scalability, maintainability, and code quality.
- Coordinate with developers, stakeholders, and cross-functional team members to clarify requirements, resolve blockers, and support successful feature delivery.
- Build and maintain web applications and RESTful APIs using React, TypeScript, NestJS, and PostgreSQL.
- Document business rules, system workflows, architectural decisions, and implemented functionality.

Full-Stack Software Engineer

AppWise Innovations | Aug. 2025 – Jan. 2026

- Built and maintained full-stack web application features based on product and stakeholder requirements.
- Developed RESTful APIs and database integrations, contributing to scalable and maintainable application architecture.
- Collaborated with developers and stakeholders to resolve technical issues and deliver production-ready functionality.

Full-Stack Software Engineer

Continental Venture Capital | Remote, United States | Dec. 2024 – Jul. 2025

- Led project configuration and architectural setup for new applications, with a focus on frontend development and team coordination.
- Implemented GitHub Actions workflows to automate AWS deployments and support application performance analysis.
- Mentored team members on problem-solving methodologies and code quality standards.
- Contributed to quality assurance, technical documentation, and cross-functional alignment.

Freelance Full-Stack Developer

Independent, Part-time | Jul. 2020 – Present

- Deliver end-to-end web applications for clients, from requirements analysis and technical planning to deployment and maintenance.
- Build responsive frontend interfaces, RESTful APIs, and database integrations based on individual project requirements.
- Manage direct client communication, scope definition, technical decisions, and iterative product delivery.

ADDITIONAL EXPERIENCE

Full-Stack Developer Intern

Quality Soft Services | Nov. 2024 – Dec. 2024

- Contributed to the modernization of digital billing systems for small and large businesses.
- Helped transform legacy workflows into more efficient and user-friendly web solutions.

Full-Stack Developer Intern

Zite, formerly Dealflow | Sep. 2024 – Oct. 2024

- Contributed to the development of a financing platform connecting entrepreneurs with institutional and private investors.
- Supported functionality related to investment management, funding processes, and project evaluation.

Full-Stack Developer Intern

Scrum Latam Community | Aug. 2024 – Dec. 2024

- Contributed to web solutions supporting a professional Scrum and Agile community across Latin America.
- Supported digital experiences related to events, educational resources, and community engagement.

Full-Stack Web Development Teaching Assistant

Henry | Academic Experience | Jun. 2024 – Aug. 2024

- Coordinated student groups and supported their integration into collaborative study teams.
- Provided technical guidance for exercises and encouraged pair programming and teamwork.
- Proposed improvements to Bootcamp processes and learning dynamics.
- Helped students develop technical, communication, and problem-solving skills.
